

Subject: Application for Associate – Front-End Developer (Job ID 96398)

Dear Hiring Team,

I hope you're doing well.

I am writing to apply for the Associate – Front-End Developer position at BCN Labs, **Bain & Company** (Job ID 96398). I am currently pursuing a B.Tech in Computer Science and recently completed a 3-month **internship** as a **Full Stack Web Developer** at **Zaalima.in**.

During my internship, I worked on real-world projects using **React.js, JavaScript (ES6+), Tailwind CSS, and RESTful APIs**. I also collaborated with the backend team to integrate APIs and worked with tools like Git and GitHub for version control. I followed **Agile practices**, participated in sprint discussions, and gained experience in writing clean, modular, and reusable code.

This experience helped me build a strong foundation in frontend development and teamwork. I'm excited about the opportunity to work at BCN Labs, where I can contribute to data-driven applications and collaborate with cross-functional teams on impactful solutions.

Thank you for considering my application. I've attached my resume for your review and would be grateful for the opportunity to discuss how I can support your team.

Sincerely,

Aman Prajapati
